- The stuff you are carrying with you is completely on your own responsibility all the time. Especially in the evening time if you are having alcoholic or any kind of semi alcoholic drinks.
- Losing the stuff on beach sand is very common so please make sure you handle your stuff very carefully.
- Most important there are different kinds of people in camp we can't judge anyone from their outer appearance. Just be extra cautious with your stuff.

Miscellaneous:-

- Do not carry unnecessary stuff.
- Have a sense and deep feeling for camping. Admire nature. It's not a resort or a hotel.
- Do not go out in the river without informing the camp staff and without a life jacket. River is not a swimming pool or a small stream. Especially when it is dark.
- Quick sand and a sudden depth is seriously dangerous in river. So never step in water without a life jacket.
- Do not throw the trash here and there. Use the garbage bins.
